Drives Bats From: • Blinds • Sheds • Chimneys
Attics • Wall Voids • Shutters • Crawl Spaces • Vents • Soffits

Bonide® Bat Magic™ Bat Repellent

Bonide® Bat Magic™ Bat Repellent repels bats from around your home when used as directed. Use to drive bats from confined areas such as attics, wall voids, crawl spaces, behind blinds, siding and shutters, eaves, soffits, chimneys, gable vents, sheds, louvers, ridge vents and other dark quiet, confined spaces bats prefer to roost in.

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide Products, LLC represents that the ingredients qualify for exemption from registration under FIFRA.

How It Works

The unique blend of the ingredients in this product interfere with chemoreception and the functions of a bats stensons canal. This balanced blend of essential oils humanely provides maximum repellency without harm to bats, other animals or the environment.

How to Use

Indoor Use

Bats are generally harmless and even helpful in keeping insect populations down. However, their urine and guano may cause foul odors and their squeaking, rustling and scratching can be very annoying.

Bonide® Bat Magic™ Bat Repellent is packaged in convenient “scent packs” that can be easily placed, tossed or tacked wherever needed. Begin treatment by removing scent packs from plastic pouch and use one scent pack per 150 sq. ft. Increase the number of scent packs as needed until the desired results are obtained. Heavier infestations may require more scent packs. While Bonide® Bat Magic™ Bat Repellent contains essential oils and it's odor is very pleasant, too many scent packs in a small area can be over powering. Should this occur, simply reduce the number of scent packs used.

Helpful Hints: Once bats choose a place to roost, they will continually return there. For this reason, it is important to seal off entrances after bats depart. Leaving lights on in infested areas also encourages bats to stay away. If a bat is inside the living quarters of your home, restrict it to one room if possible, open doors and/or windows and turn lights off, the bat will eventually find it's own way out.

NOTE: Do not apply to furniture, painted surfaces or fine finishes without testing on a small inconspicuous area first.

First Aid

Product can cause moderate eye irritation. In case of eye contact, flush with plenty of water. For certain individuals, skin irritation may occur. In case of skin irritation, wash area thoroughly with soap and water. Seek medical attention if irritation persists. May be harmful if swallowed. May be harmful if ingested. May be an inhalation hazard. Use only with adequate ventilation. If adequate ventilation cannot be achieved, wear a mask or respirator when applying.

Storage and Disposal: Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

Other Precautions: Do not apply directly to water.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with label directions.
