Mosquito Beater®

General Information: Mosquito Beater® is quick and easy to apply. It is ready to use: no mixing, no water. Simply broadcast granules on the ground directly from this container or apply with a lawn spreader, dust gun or hand crank duster.

HOW IT WORKS

Selection of Treatment Areas and Times: As the action of Mosquito Beater® depends upon release of active ingredients in the vapor phase, air movements affect results considerably. Best results in small areas are obtained in quiet or relatively still air, such as occurs during early evening periods. Application should be made at least an hour before the area is occupied when possible. During periods of light to medium air currents allow a longer period prior to occupancy or treat a larger area.

HOW TO USE

Application Directions: Apply at the rate of 5.2 oz. per 1,000 sq. ft. Always treat an area considerably larger than that to be occupied. This container covers 4,000 sq. ft.

Effectiveness of Treatment: Starting one hour after application, one treatment may be effective up to 3 weeks. Rainfall, temperature, and wind may affect effectiveness.

Retreatment Directions: Repeat application when area becomes reinfested.

Precautions: Do not apply directly to water. Not for aquatic use. Not for food use.

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide Products, LLC represents that the ingredients qualify for exemption from registration under FIFRA.

Storage and Disposal

Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

First Aid

Product can cause moderate eye irritation. For certain individuals, skin irritation may occur. In case of skin irritation, wash area thoroughly with soap and water. In case of eye contact, flush with plenty of water. May be harmful if swallowed. May be harmful if ingested. May be an inhalation hazard. Use only with adequate ventilation. If adequate ventilation cannot be achieved, wear a mask or respirator when applying.

Notice: Buyer assumes all responsibility for safety and use not in accordance with label directions.
