

Bonide® No Escape® Mouse Magic™ Mouse Repellent

Bonide® No Escape® Mouse Magic™ Mouse Repellent repels rodents from around your home. Apply around homes, garages, barns, sheds, woodpiles, patios, decks, attics, cellars, and other areas where mice may be a problem. May be used in areas where children and pets play when used as directed.

Bonide® No Escape® Mouse Magic™ will not harm lawns, gardens, flowerbeds or other desirable plants when used as directed.

How It Works

The unique blend of ingredients in this product triggers "escape/avoidance" behavior in mice. This balanced blend of essential oils humanely provides maximum repellency, without harm to mice or other animals.

How to Use

Bonide® No Escape® Mouse Magic™ Mouse Repellent is packaged in convenient scent packs that can be easily placed where needed. This is particularly helpful for those difficult to reach areas like drop ceilings and behind large appliances, and in preventing infestation of stored pet food and bird seed. This product also masks scent trails, which helps prevent reinfestation.

To Apply: Remove scent packs from plastic pouch and simply distribute the scent packs around any area rodents hide, feed or congregate. Pay particular attention to areas around walls and other surfaces that may serve as runways. In any areas of potential entry, and to potential nesting areas.

Begin treatment with one scent pack per average sized room. Increase the number of scent packs, as needed, until desired results are achieved. Heavier infestations may require more scent packs per room. While Bonide® No Escape® Mouse Magic™ Mouse Repellent contains essential oils, and it's odor is very pleasant, too many scent packs in a small area can be overpowering. Should this occur, simply reduce the number of scent packs used.

Bonide® No Escape® Mouse Magic™ repels mice for 30 days or more.

NOTE: Do not apply to furniture, painted surfaces or fine finishes without testing on a small inconspicuous area first.

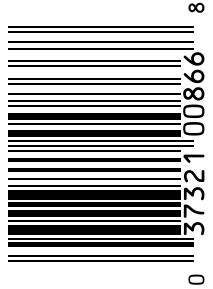

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that the ingredients qualify for exemption from registration under FIFRA.

FIRST AID

- Product can cause moderate eye irritation.
- For certain individuals, skin irritation may occur. In case of skin irritation, wash area thoroughly with soap and water. Seek medical attention if irritation persists.
- In case of eye contact, flush with plenty of water.
- May be harmful if ingested.
